

OVENS

Vecstar design and build industrial fan assisted ovens designed and fabricated to specific customer requirements. Heat is provided via high quality mineral insulated, metal sheathed elements. All our fan assisted ovens come with a stainless steel chamber. Natural convection ovens are also available at customer request. Our ovens are available with a continuous operating temperature of up to 750°C (1380°F). We are able to provide 9 point UKAS accreditation to AMS 2750D at customer request.

ABOUT VECSTAR

We build furnaces, ovens and hot plates for industry, laboratories and educational institutions. During the 30+ years Vecstar have been established, a comprehensive range of advanced electric heating equipment has been developed.
